Description

It would be good to add some initial WMS servers to the server list so the users don't need to search the web for some WMS servers to try it.

I suggest e.g. NASA, demis.nl ....

A list of some public WMS servers is here:

Done in snv commit:010f3371 (SVN r5943). There's now a button that adds some default servers to the list.
