

# QGIS Application - Feature request #343

## Scale bar and measurement units should be selectable

2006-10-12 12:00 PM - jack38-hughes-net -

<b>Status:</b> Closed	
<b>Priority:</b> Low	
<b>Assignee:</b> Gary Sherman	
<b>Category:</b> C++ Plugins	
<b>Pull Request or Patch supplied:</b>	<b>Resolution:</b> fixed
<b>Easy fix?:</b> No	<b>Copied to github as #:</b> 10402
<b>Description</b>	
It should be possible to select units for the scale bar, ie, feet or miles in addition to m/km. Also measurement units should be selectable: meters, feet, miles for distance and sq. m, sq. ft., acres for area measurement.	

### History

#### #1 - 2007-01-27 11:21 AM - Magnus Homann

Measurement units are now selectable in trunk.

#### #2 - 2008-03-19 07:56 AM - leolami -

Can we close it?

#### #3 - 2008-03-20 03:39 AM - leolami -

- Resolution set to fixed

- Status changed from Open to Closed

I close it. If you think it is still valid reopen it, please.
