QGIS Application - Feature request #3440

Rule Render: In the legend permit the change of the title in the legend for every rule

Pull Request or Patch supplied:		**Resolution:**	fixed
Easy fix?:	No	**Copied to github as #:**	13500

Description

In the rule-renderer , actually for every rule, in the legend there is the Filter string.

This not always is a good choice because the Filter-string could be complex and long.

Would be better to have the option to choice between the Filter-string or a customizable string (hiding the Filter stirng).
