

QGIS Application - Feature request #3486

Snapping for move tool

2011-02-13 01:57 AM - Alister Hood

Status: Closed	
Priority: Low	
Assignee:	
Category: Digitising	
Pull Request or Patch supplied:	Resolution: fixed/implemented
Easy fix?: No	Copied to github as #: 13546
Description	
When using the move tool the mouse should snap (to layers with snapping enabled):	
1) when clicking, to select where to drag from, and	
2) when releasing, to select where to drag to.

There is a workaround, but only for moving one object at a time:

Use the node tool and select all the vertices in the object to move at once.

- Status changed from Open to Feedback

Hello, bug triage...

in QGIS 2.13 master it is still not possible to snap when moving a feature. The workaround in the first comment seems to not work anymore...
