QGIS Application - Bug report #3539
v.to.db: allow selecting 2/3 columns

2011-03-02 01:31 PM - Enrico Fiore

Status:	Closed			
Priority:	Low			
Assignee:				
Category:	GRASS			
Affected QGIS version:	master	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:	No	**Resolution:**		
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	13599	

Description

When I try to upload x, y and z coordinates from vector geometry to attribute table, I can't select from menù the tree column to update, but only one, this creates an error because the comand requires two or tree column to run.

- Status changed from Open to Feedback

Hello, bug triage...

this is still valid for QGIS 2.13 master.

The interface of this GRASS Module in QGIS should be modified to allow more than one attribute field when using option 'coor': "Point coordinates X,Y or

X,Y,Z".

#8 - 2016-02-03 05:22 AM - Radim Blazek

- Status changed from Open to Closed

Fixed in changeset commit:"250fcbcd6bbc0872718da6405b5b63c3d6fe5a9d".

#9 - 2016-02-03 05:26 AM - Radim Blazek

Fixed, additional fields may be added by '+' button. Still not perfect because fields must be added manually. Ideally number of fields would be automatically changed according to option selected, but it also depends on vector's dimension.
