### Description

The tiled layer from this service doesn't work:

<http://osm.omniscale.net/proxy/service?tilled=true>

Debugging the request I can get this information

GET

```
/proxy/service?SERVICE=WMS&VERSION=1.1.1&REQUEST=GetMap&BBOX=-89.910000,5.038871,0.090000,95.038871&SRS=EPSG:4326&WIDTH=256&HEIGHT=256&LAYERS=osm&STYLES=&FORMAT=image/png&TILED=true
```

Changing BBOX by hand works fine:

<http://osm.omniscale.net/proxy/service?SERVICE=WMS&VERSION=1.1.1&REQUEST=GetMap&BBOX=-90.0000,0.000,0.000000,90.00&SRS=EPSG:4326&WIDTH=256&HEIGHT=256&LAYERS=osm&STYLES=&FORMAT=image/png&TILED=true>

It seems that QGIS calculate a wrong BBOX and [[MapProxy]] doesn't accept it.

It's all fine using [[GeoWebCache]], but it allows a big tolerance.
