<b>Description</b>		
<p>to reproduce do the following</p> <ol style="list-style-type: none"><li>1) add a polygon layer</li><li>2) use new symbology</li><li>3) add a "Outline: Simple line" width 5, color green</li><li>4) add a "Outline: Simple line" width 1, offset -6, color black</li></ol> <p>this should result in a thick green line with a black line at the outer edge in any scale</p> <ol style="list-style-type: none"><li>5) change units to "Map unit"</li></ol> <p>this results in the two lines getting thicker when zooming in but the distance between them stays constant in screen units!</p>
