Easy fix?:	No	**Copied to github as #:**	13716

Description

It would be great if a user could select several raster layers on the legend and then click on Local Histogram Stretch.

As it is now, I have to record the min/max values of all of my DEMs to find the max max and min min then use these values in each raster so I can have a seamless map. I realize that it would make my job easier if I created a vrt of my rasters and use Local Histogram Stretch on that.

History

#1 - 2011-12-16 01:48 PM - Giovanni Manghi

- Target version changed from Version 1.7.0 to Version 1.7.4

#2 - 2012-04-15 10:11 AM - Giovanni Manghi

- Target version changed from Version 1.7.4 to Version 2.0.0

#3 - 2012-10-06 02:33 AM - Pirmin Kalberer

- Target version changed from Version 2.0.0 to Future Release - Nice to have

#4 - 2017-05-01 12:42 AM - Giovanni Manghi

- Easy fix? set to No

- Pull Request or Patch supplied set to No
