

QGIS Application - Bug report #3665

GDALTools: rasterize does not need an existing raster with GDAL >=1.8

2011-03-22 08:40 AM - Paolo Cavallini

Status: Closed	
Priority: Low	
Assignee: Giuseppe Sucameli	
Category: GDAL Tools	
Affected QGIS version:	Regression?: No
Operating System: All	Easy fix?: No
Pull Request or Patch supplied:	Resolution: invalid
Crashes QGIS or corrupts data:	Copied to github as #: 13724
Description	
When GDAL 1.8+ is available, the option to add an existing raster should be removed	

History

#1 - 2011-03-22 08:48 AM - Giuseppe Sucameli

Do you mean to set "New size" width and height as mandatory fields if GDAL >= 1.8?

#2 - 2011-03-22 08:54 AM - Paolo Cavallini

Not: I mean the option "Output file for rasterized vectors (must exist)", that is not necessary for GDAL 1.8

#3 - 2011-03-22 09:01 AM - Giuseppe Sucameli

- Resolution set to invalid

- Status changed from Open to Closed

This was fixed in commit:63a41df8 (SVN r15470), see #3545
