QGIS Application - Bug report #3680
Size and rotation field does not work after reclassification

2011-03-26 07:33 AM - Borys Jurgiel

Status:	Closed			
Priority:	Low			
Assignee:	Martin Dobias			
Category:	Symbology			
Affected QGIS version:		**Regression?:**	No	
Operating System:	All	**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**	duplicate	
Crashes QGIS or corrupts data:		**Copied to github as #:**	13739	

Description

1. Classify a point layer (with the new symbology of course)

2. Set rotation and/or size field

3. Everything works perfectly

4. Now reclassify the layer

5. Size and rotation fields are not considered any more. You need to dummy click the already selected items on the drop-down lists to trigger the recalculation.
