

QGIS Application - Bug report #3739

WMS Transparency Rendering problem

2011-04-15 02:21 AM - kevthekelt -

Status:	Closed	
Priority:	Low	
Assignee:	Marco Hugentobler	
Category:	Web Services clients/WMS	
Affected QGIS version:		Regression?: No
Operating System:	Windows	Easy fix?: No
Pull Request or Patch supplied:		Resolution: fixed
Crashes QGIS or corrupts data:		Copied to github as #: 13798
Description		
<p>Not sure if anyone has noticed but 1.7 does not allow transparency for a wms layer but this worked in 1.6. Is this intentional to conform to the SLD for that layer? as the SLD itself can specify transparency. It was useful in 1.6.</p>		

History

#1 - 2011-04-15 05:27 AM - Tim Sutton

- Resolution set to fixed
- Status changed from Open to Closed

Fixed in commit:880088c1 (SVN r15704) - Hello from Juergen & Tim in Lisbon!
