

QGIS Application - Bug report #3762

"Cancel" does not revert a change between new and old symbology

2011-04-20 04:59 AM - Alister Hood

Status:	Closed	
Priority:	Low	
Assignee:		
Category:	GUI	
Affected QGIS version:	master	Regression?: No
Operating System:	Windows	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: invalid
Crashes QGIS or corrupts data:	No	Copied to github as #: 13821
Description		
<p>(I'm setting this as "minor" since it isn't very important and the old symbology will be dropped soon I think. But I thought it should be reported anyway, just to be thorough.)</p> <ol style="list-style-type: none">1. open the Layer Properties for a vector layer2. click the button to switch between Old and New Symbology3. click "Yes"4. click "Cancel"5. open the Layer Properties again: the symbology is still set to what it was after step6. But when "Cancel" was clicked a normal user would have expected it to have reverted back to what it was originally. <p>FWIW I'm running r15740</p>

- Status changed from Open to Closed
- Resolution set to duplicate

duplicate of #3761

#2 - 2011-04-20 05:04 AM - Alister Hood

- Status changed from Closed to Feedback
- Resolution deleted (duplicate)

No, not a duplicate. It is a different cancel button in a different dialogue (a sub-dialogue).

#3 - 2011-04-20 05:13 AM - Alister Hood

It is a different cancel button in a different dialogue (a sub-dialogue).

I mean #3761 is in a sub-dialogue of this one.
