QGIS Application - Bug report #3762
"Cancel" does not revert a change between new and old symbology

2011-04-20 04:59 AM - Alister Hood

Status:	Closed			
Priority:	Low			
Assignee:				
Category:	GUI			
Affected QGIS version:	master	**Regression?:**	No	
Operating System:	Windows	**Easy fix?:**	No	
Pull Request or Patch supplied:	No	**Resolution:**	invalid	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	13821	

Description

(I'm setting this as "minor" since it isn't very important and the old symbology will be dropped soon I think. But I thought it should be reported anyway, just to be thorough.)

1. open the Layer Properties for a vector layer
2. click the button to switch between Old and New Symbology
3. click "Yes"
4. click "Cancel"
5. open the Layer Properties again: the symbology is still set to what it was after step
6. But when "Cancel" was clicked a normal user would have expected it to have reverted back to what it was originally.

FWIW I'm running r15740

duplicate of #3761

#2 - 2011-04-20 05:04 AM - Alister Hood

- Status changed from Closed to Feedback

- Resolution deleted (duplicate)

No, not a duplicate. It is a different cancel button in a different dialogue (a sub-dialogue).

> It is a different cancel button in a different dialogue (a sub-dialogue).

I mean #3761 is in a sub-dialogue of this one.
