QGIS Application - Bug report #3764
imcomplete colormap of raster

2011-04-21 02:46 AM - qgisviti -

Status:	Closed			
Priority:	Low			
Assignee:	nobody -			
Category:	Symbology			
Affected QGIS version:		**Regression?:**	No	
Operating System:	Windows	**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**	worksforme	
Crashes QGIS or corrupts data:		**Copied to github as #:**	13823	

Description

When I try to colour my raster map with the function colormap in properties, color scale is not complete and my raster map is not coloured entirely.

History

#1 - 2011-04-21 02:49 AM - Giovanni Manghi

please add or link sample data

#2 - 2011-04-21 06:35 AM - Giovanni Manghi

- *Resolution set to worksforme*
- *Status changed from Open to Closed*

it works fine with trunk under both linux and windows. Please give it a try (with osgeo4w) and reopen if necessary, possibly describing the exact steps to replicate.
