Description	
<p>With on-the-fly-reprojection on, for a raster layer, if "Zoom to best scale (100%)" is used the map scale becomes 1:6517 instead of the expected 1:9216 (for a 96dpi display). The raster is a 1:24000 250dpi scanned topo map.</p> <p>Works correctly if OTFR is off.</p> <p>This problem cropped up in the past 2 or 3 months.</p>
