Crashes QGIS or corrupts data:	No	Copied to github as #: 13927
Description		
<p>One perhaps minor issue with raster/merge: cannot select several input files for mosaicking if they are in different directories</p> <p>I've done it by copying, pasting and modifying the command from the gui to a command window.</p> <p>Agus</p>

- Pull Request or Patch supplied set to No

There's no way to select more files in different directories using a file dialog.

An easy solution could be to add a plus (+) button that allows to append files to the list instead of replacing them.
