Pull Request or Patch shapplied: Resolution: duplicate
Crashes QGIS or corrupts data: Copied to github as #: 13927

## Description

One perhaps minor issue with raster/merge: cannot select several input

files for mosaicking if they are in

different directories

I've done it by copying, pasting and modifying the command from the gui to a command window.

Agus

## History

## #1 - 2011-09-01 03:23 AM - Giuseppe Sucameli

- Pull Request or Patch supplied set to No

There's no way to select more files in different directories using a file dialog.

An easy solution could be to add a plus (+) button that allows to append files to the list instead of replacing them.

#### #2 - 2011-12-16 12:44 PM - Giovanni Manghi

- Target version changed from Version 1.7.0 to Version 1.7.4

## #3 - 2011-12-23 09:40 AM - Paolo Cavallini

- Crashes QGIS or corrupts data set to No
- Affected QGIS version set to master
- Resolution set to duplicate
- Status changed from Open to Closed

Duplicate of #3333
