

QGIS Application - Bug report #3907

struct/class mismatch for QgsDataSourceURI

2006-03-24 12:55 PM - Mateusz Loskot -

Status: Closed	
Priority: Low	
Assignee: Gary Sherman	
Category: Data Provider	
Affected QGIS version:	Regression?: No
Operating System: Windows	Easy fix?: No
Pull Request or Patch supplied:	Resolution: fixed
Crashes QGIS or corrupts data:	Copied to github as #: 13931

Description

In qgsdatasourceuri.h file, **QgsDataSourceURI** is declared as a struct:

```
struct [[QgsDataSourceURI]]
{
//...
};
```

but in file qgsdataprovider.h the same type is announced in forward declaration using class keyword:

```
class [[QgsDataSourceURI!]];
```

The compiler will use the type given in the definition, instead of that in forward declaration.

History

#1 - 2006-04-08 04:39 AM - Gavin Macaulay -

- Resolution set to fixed
- Status changed from Open to Closed

Fixed in commit:273b0a1b (SVN r5230)

#2 - 2009-08-22 12:46 AM - Anonymous

Milestone Version 0.8 deleted
