

QGIS Application - Feature request #391

Convert between GPX and SHAPE format

2006-11-14 02:19 PM - neteler-itc-it -

Status: Closed	
Priority: Low	
Assignee: Tim Sutton	
Category: C++ Plugins	
Pull Request or Patch supplied:	Resolution: fixed
Easy fix?: No	Copied to github as #: 10450
Description	
<p>Hi,</p> <p>it would be fancy to have the possibility to export the GPX file to SHAPE and vice verse. Since gpsbabel is already there which supports this conversion, it should be fairly "easy" to add that.</p> <p>Two illustrate the commands, there my related shell scripts:</p> <p>http://mpa.itc.it/markus/useful/gpx2shp.sh http://mpa.itc.it/markus/useful/shp2gpx.sh</p> <p>Best regards, Markus</p>	

History

- Resolution set to fixed
- Status changed from Open to Closed

This is already possible (left click -> Save as shapefile) on any layer, from version 0.9

#2 - 2009-08-22 12:45 AM - Anonymous

Milestone Version 0.9 deleted
