QGIS Application - Feature request #3937
QgsCsException constructor calls using unqualified std::string

2006-03-29 02:33 AM - anonymous -

Status:	Closed			
Priority:	Low			
Assignee:	Gary Sherman			
Category:	Build/Install			
Pull Request or Patch supplied:			**Resolution:**	fixed
Easy fix?:	No		**Copied to github as #:**	13961

Description

4 constructions of QGsCSException are made w/out qualifying the 'string' type.

This results in error in my envoronment (GNU/Linux - gcc 3.3.5).

I'll attach a patch when build succeeds (If I find out how it is done).

History

#1 - 2006-04-07 08:42 PM - Gavin Macaulay -

- Resolution set to fixed

- Status changed from Open to Closed

A couple of these instances still exist in HEAD, so I've corrected them (commit:f65d0683 (SVN r5224))

#2 - 2006-05-04 01:10 AM - anonymous -

- Resolution deleted (fixed)

- Status changed from Closed to Feedback

This bug seems to be still present in the 0.7 branch, could anyone apply it there too ?

#3 - 2006-05-15 05:47 PM - Gavin Macaulay -

- Resolution set to fixed

- Status changed from Feedback to Closed

Applied to 0.7 branch too, SVN
