

QGIS Plugin Site - Bug report #3990

Plugin icons not showing

2011-06-15 01:26 PM - Chris Crook

Status:	Closed	
Priority:	Normal	
Assignee:	Alessandro Pasotti	
Category:		
Pull Request or Patch supplied:		
Description		
I've uploaded two plugins - VectorFieldRenderer and MemoryLayerSaver. Both have icons defined (which show in QGIS plugin manager), but when I look at "my plugins" on the plugin repository they don't appear...

First problem is the "." prefix (which is useless anyway).  
I'm working on a fix.

But your plugin *init* contains an error which will make this fail in any case:

```
def icon():  
    return "./VectorFieldRenderer.png"
```

the zip file does not contain this file!!!

the zip file contains "VectorFieldRendererIcon.png" instead.

Please fix your plugin.
