QGIS Application - Bug report #4074
"invert color map" is not checked when it has been enabled for a layer

2011-07-12 03:15 PM - Alister Hood

Status:	Closed			
Priority:	Low			
Assignee:				
Category:	GUI			
Affected QGIS version:	master	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:	No	**Resolution:**	fixed	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	14057	

Description

- load an RGB raster image.
- in the symbology options select "invert color map" and click OK.
- go back into the symbology options and you will see "invert color map" is no longer checked. To undo the colour inversion you need to check it again and then uncheck it.

I am using trunk on WinXP if that matters

History

#1 - 2011-12-16 02:11 PM - Giovanni Manghi

- Target version set to Version 1.7.4

#2 - 2012-04-16 06:28 AM - Paolo Cavallini

- Crashes QGIS or corrupts data set to No
