

QGIS Application - Bug report #412

identifying features fails to unfold the attributes list

2006-11-30 01:46 PM - Redmine Admin

Status: Closed	
Priority: Low	
Assignee: Marco Hugentobler	
Category: Map Legend	
Affected QGIS version:	Regression?: No
Operating System: Debian	Easy fix?: No
Pull Request or Patch supplied:	Resolution: fixed
Crashes QGIS or corrupts data:	Copied to github as #: 10471
Description	
<p>When I identify a vector feature, I'm not getting the list of attributes automatically. See attached pics is.png and shouldbe.png.</p> <p>This looks like a new issue - either due to changes in QGIS or QT 4.2.1. I didn't have that problem with QGIS HEAD from SVN few days ago, built against QT 4.1 then.</p> <p>Maciek</p>	

History

#1 - 2006-11-30 02:24 PM - Gavin Macaulay -

- Resolution set to fixed
- Status changed from Open to Closed

Fixed in svn commit:6ad7db4b (SVN r6157)

#2 - 2009-08-22 12:46 AM - Anonymous

Milestone Version 0.8 deleted
