

QGIS Application - Feature request #4275

Strip off file extension for layer name when adding via the Browser pane

2011-09-09 03:18 AM - Alister Hood

Status:	Closed	
Priority:	Low	
Assignee:		
Category:	GUI	
Pull Request or Patch supplied:		Resolution: worksforme
Easy fix?:	No	Copied to github as #: 14215
Description		
<p>When adding a file by dragging and dropping into the Layer control, or by using "Layer-Add...", the file extension is stripped off to create the layer name displayed in the layer control.</p> <p>When adding a file by double-clicking on it in the browser pane, the file extension is not stripped off.</p>
