

QGIS Application - Bug report #428

default line width scale should be 0, not 1

2006-12-07 06:36 AM - Redmine Admin

Status: Closed	
Priority: Low	
Assignee: Redmine Admin	
Category:	
Affected QGIS version:	Regression?: No
Operating System: Debian	Easy fix?: No
Pull Request or Patch supplied:	Resolution: duplicate
Crashes QGIS or corrupts data:	Copied to github as #: 10487

Description

See the attached screendumps of the map composer with line width scale set to 0 and 1, respective PDF output and the original map view. The map view, PDF output and the print composer view look most similar when the line width scale is 0. If the scale is 1 they differ a lot.
