Category:	GUI	
Affected QGIS version:	master	Regression?: No
Operating System:	Windows	Easy fix?: No
Pull Request or Patch supplied:	Yes	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 14227
Description		
<p>When using the save button on the attribute table dialog it doesnt 'untoggle' and stays depressed. You then have to click it twice the next time you use it and are still not sure it has saved. At the moment I am working around by clicking the Edit button and saving the edits when it prompts me.</p> <p>Using OSGEO4W Dev version (67dfd2e) on Windows XP.</p>
