Category:		
Affected QGIS version:		Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution: fixed
Crashes QGIS or corrupts data:		Copied to github as #: 14268
Description		
<p>I was trying to use "Unique Value" to classify for symbology/style. I first classified by a column called "DESC_GROUP" and then changed it to "DESC_TERM". This brought up the attached dialog box.</p> <p>The bug is that it's asked me a "yes, no" question but giving me "ok, cancel" as the options.</p>
