

QGIS Application - Feature request #4383

ftools: Improve how processes are handled

2011-10-15 06:30 AM - Giovanni Manghi

Status:	Closed	
Priority:	Normal	
Assignee:	cfarmer -	
Category:	Processing/QGIS	
Pull Request or Patch supplied:	No	Resolution: wontfix
Easy fix?:	No	Copied to github as #: 14315
Description		
See also #3810-6		
The suggestion would be to improve them the same way as the gdal tools processes are handled: launching a process does not "block" qgis as it runs in the background, and a user can still work with the main program.		
For large datasets this is a must.		

History

#1 - 2011-12-05 06:11 AM - Alexander Bruy

Merge shapefiles to one, Simplify geometries, Density geometries and Create spatial index tools now runs in separate thread and don't block QGIS main window (see commits commit:48112cc1bc, commit:ad1a4e2cde and commit:26528def45)

#2 - 2011-12-05 06:48 AM - Alexander Bruy

Split vector layer now also runs in separate thread (commit:a00ef42a75)

#3 - 2011-12-16 02:10 PM - Giovanni Manghi

- Target version set to Version 1.7.4

#4 - 2012-04-15 10:09 AM - Giovanni Manghi

- Target version changed from Version 1.7.4 to Version 2.0.0

#5 - 2012-10-06 02:15 AM - Pirmin Kalberer

- Target version changed from Version 2.0.0 to Future Release - Nice to have

#6 - 2014-06-20 03:36 AM - Giovanni Manghi

- Status changed from Open to Closed

- Resolution set to wontfix

This would need to be implemented in Processing tools.

#7 - 2017-05-01 01:22 AM - Giovanni Manghi

The "ftools" category is being removed from the tracker, changing the category of this ticket to "Processing/QGIS" to not leave the category orphaned.

#8 - 2017-08-08 08:36 AM - Jürgen Fischer

- *Easy fix? set to No*
- *Description updated*
