QGIS Application - Bug report #4428
Diagram overlays not displaying when render caching is on

2011-10-22 09:14 PM - Jesse Sheffield

Status:	Closed			
Priority:	High			
Assignee:				
Category:	Vectors			
Affected QGIS version:	master	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**	worksforme	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	14360	

Description

Diagram layers do not display when "Use render caching where possible to speed up redraws" is checked.
Issue is in both 1.7.0 and 1.7.1

History

#1 - 2011-10-24 05:53 AM - Giovanni Manghi

- Target version changed from Version 1.7.1 to Version 1.8.0

- Priority changed from Normal to High

- Category set to Vectors

Confirmed on qgis-trunk on Ubuntu 11.10

#2 - 2011-12-24 01:57 AM - Giovanni Manghi

- Crashes QGIS or corrupts data set to No

- Status changed from Open to Closed

- Affected QGIS version set to master

- Resolution set to worksforme

This issue seems gone in master/1.7.3. After enabling "Use render caching where possible to speed up redraws" diagrams do disappear but it is just needed to hit "refresh map" to see them again. Reopen if necessary.
