| Status: Closed | |
| Priority: High | |
| Assignee: | |
| Category: QGIS Server | |
| Affected QGIS version: | Regression?: No |
| Operating System: | Easy fix?: No |
| Pull Request or Patch supplied: | Resolution: invalid |
| Crashes QGIS or corrupts data: | Copied to github as #: 14363 |
| Description | |
| <p>It's said about QGIS mapserver that it implements WMS 1.3 as well as 1.1.1 [1]. But the GetCapabilities XML always seems to be Version 1.3. whatever VERSION I put in my GetCapa request</p> <p>Marco</p> <p>[1] http://karlinapp.ethz.ch/qgis_wms/about/index.html</p> | |

History

#1 - 2011-10-23 05:37 AM - Giovanni Manghi

- Resolution set to *invalid*

- Status changed from *Open* to *Closed*

That documentation page is obsolete, see the QGIS manual page 93. QGIS-Server only implements wms 1.3
