- Status changed from Open to Feedback

Hello, bug triage ...

do still have this bug on a recent version of QGIS (2.12.1 or master) ?

I can't reproduce it on QGIS master: symbol size seems to be equal (at least undetected by my eyes) between composer and pdf.

- Status changed from Feedback to Closed
- Resolution set to worksforme

closing for lack of feedback and as it seems fixed in recent qgis releases.
