

QGIS Application - Feature request #459

Collapse GRASS tool list

| Easy fix?: No | Copied to github as #: 10518 |
| Description | |
| Hi, | |
| The GRASS tool list is totally overwhelming. It would be much better if it started out in its collapsed form, instead of all submenus open full. | |
| Rule of thumb: never present more than 12 options in a submenu. | |

History

#1 - 2007-01-02 08:40 AM - Redmine Admin

Agreed. We're adding more commands, and the problem will increase with time. I think it will be good to structure the menus more clearly: we're working on a "import/export/vector/raster/3Dvisualization/expert mode/shell" subdivision, but directions will be welcomed.

#2 - 2007-02-25 07:40 PM - Tim Sutton

Moved to milestone 0.9 since this looks like it involves large changes and in 0.8.x we will only be doing bug fixing / stabilising

#3 - 2007-11-10 10:01 AM - Markus Neteler

please collapse the toolbox listing... I heard many comments about this from GRASS users.

Additional idea: make use of the keywords each GRASS command has - through a search engine as already present for EPSG projection names. That would be a great help. Open a new wish for this?

Markus

#4 - 2008-04-30 03:49 PM - Markus Neteler

Again, please collapse the toolbox listing. This is a major PITA. I have updated now to Release-0.10.0 but still it is all expanded...

Thanks

Markus

#5 - 2008-05-12 07:27 AM - Tim Sutton

Hi

I will be revising the grass toolbox with module search and module categories before 1.0 release of QGIS. Please bear with us until I get a chance to do this.

Regards

Tim

#6 - 2008-07-14 05:50 AM - Tim Sutton

- Status changed from Open to In Progress

#7 - 2008-07-14 08:12 AM - Tim Sutton

Please note its still expanded in the 0.11.0 release but there is the new list control with filtering support now in 0.11.0. For 1.0.0 I am doing a larger overhaul of the GRASS toolbox and will make the tree collapsed by default.

#8 - 2008-11-07 12:09 PM - Markus Neteler

I just tried trunk but it appears yet expanded... I keep fingers crossed!

#9 - 2008-11-12 10:55 PM - Tim Sutton

This is on my todo list before we release 1.0 - will get to it once API cleanup is finalised.

#10 - 2009-04-07 05:39 AM - Jürgen Fischer

- Status changed from In Progress to Closed

- Resolution set to fixed

implemented in commit:dc6b7cdc (SVN r10497)

#11 - 2009-04-07 12:33 PM - Markus Neteler

Thanks, really appreciated. The toolbox is nicely collapsed also in 1.0.x.

Thanks so much, Markus

#12 - 2009-08-22 01:02 AM - Anonymous

Milestone Version 1.0.2 deleted
