

QGIS Application - Feature request #4598

'save as' 'Save selection as vector file' dialog enhancement

2011-12-02 07:11 AM - alberto collatin

Status: Closed	
Priority: Normal	
Assignee:	
Category: Vectors	
Pull Request or Patch supplied:	Resolution:
Easy fix?: No	Copied to github as #: 14503
Description	
IMHO it would be useful in the Layer->'Save as...' and 'Save selection as vector file' dialogs (generally in all dialogs that generate a new layer) to have a check 'add result to map canvas' like for example in fTools 'Data management tools-> Merge Shapefiles to one' or in all dialogs of GdalTools (load into canvas when finished).	

Associated revisions

Revision 16d0d2f2 - 2012-02-02 10:18 PM - Jürgen Fischer

optionally add save vector file to canvas (fix #4598)

I agree, This is a feature that is OFTEN requested by users.

Could you please check if this ticket is duplicate of another one? I feel the request was already posted.

#2 - 2011-12-02 07:59 AM - alberto collatin

I've checked before opening the ticket filtering on 'save' and I didn't find duplicates (only a generic related one #4307), but, as I'm a newbie, if you have some other keywords to suggest I can refine my search.
