

QGIS Application - Bug report #4635

Attribute table edit button: only changes to columns are refreshed when Discarding changes

2011-12-12 05:49 PM - Alister Hood

Status: Closed	
Priority: Normal	
Assignee:	
Category: GUI	
Affected QGIS version: master	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied:	Resolution:
Crashes QGIS or corrupts data:	Copied to github as #: 14536
Description	
<p>(N.B. I thought a bug like this was reported a long time ago, but I can't find it).</p> <ul style="list-style-type: none">- Open an attribute table- Click the edit button- Add or delete a column- Click the edit button, and then click to Discard changes. <p>The attribute table will be refreshed as it should be (i.e. the column will disappear or reappear again).</p> <ul style="list-style-type: none">- Open an attribute table- Click the edit button- Add or delete a feature, or change one of its attributes- Click the edit button, and then click to Discard changes. <p>The attribute table will not be refreshed as it should be. To refresh it you need to close and reopen it.</p>
