

QGIS Application - Bug report #4709

If a raster band is set to "no set", then the raster become transparent

2011-12-28 08:42 AM - Giovanni Manghi

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Rasters	
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution: fixed
Crashes QGIS or corrupts data:		Copied to github as #: 14593
Description		
in a multi-band raster. Tested on qgis-mster.		

History

#1 - 2012-01-26 10:40 AM - Alexander Bruy

Looked at several old QGIS versions (1.5, 1.3 and 1.1) and all of them have same behavior. Don't know how 3-band raster can be displayed when only 2 bands supplied. Maybe, draw one band twice, e.g. RED = Band 1, GREEN = Band 2 and BLUE = Band 2?

#2 - 2012-01-27 06:34 AM - Giovanni Manghi

Then I would say to don't allow unselect a band. Your solution seems good to me.

Why should anybody unset a band? Any reason?

maybe it does not make sense, but if it is possible to do that (unselecting a band) then someone will do, and if the result is "wrong" or can puzzle the user, then better not allow it at all. Just my 2c.

#5 - 2012-04-16 06:32 AM - Paolo Cavallini

- Target version changed from Version 1.7.4 to Version 1.8.0

#6 - 2012-09-04 11:55 AM - Paolo Cavallini

- *Target version changed from Version 1.8.0 to Version 2.0.0*

#7 - 2012-10-05 01:06 AM - Giovanni Manghi

- *Resolution set to fixed*

- *Status changed from Open to Closed*

It seems fixed in master.
