

QGIS Application - Feature request #4795

Integrate connection manager

2012-01-12 09:19 AM - Paolo Cavallini

Status:	Closed	Resolution: wontfix Copied to github as #: 14650
Priority:	Normal	
Assignee:		
Category:	DB Manager	
Pull Request or Patch supplied:		
Easy fix?:	No	
Description		
Once the plugin is in master, I think having two different dialogs, one for connection and one for manager, is cumbersome. Better integrate all

- Status changed from Open to Feedback

hello, bug triage...

I think this is implemented now in QGIS (master and previous). I mean, you define connections with the databases providers and they are available directly into DBManager.

Can we close this feature request ?

#5 - 2015-12-07 07:41 AM - Paolo Cavallini

Not really: they are different, and both are needed. A complete integration will make the old one useless, so it can be removed.  
Thanks for the cleanup!

#7 - 2017-05-01 12:50 AM - Giovanni Manghi

- Easy fix? set to No

**#8 - 2018-02-23 06:06 PM - Paolo Cavallini**

- *Resolution set to wontfix*
- *Status changed from Feedback to Closed*

I believe this is not important currently. We still have a lot of duplication between the browser and the DB Manager, but that's a more general issue.
