

QGIS Application - Feature request #4800

Support "drop" into QGIS browser

2012-01-13 05:06 AM - Giovanni Manghi

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Browser	
Pull Request or Patch supplied:	No	Resolution: wontfix
Easy fix?:	No	Copied to github as #: 14652
Description		
<p>At the moment you can drag and drop layers from the browser to the canvas, and DB Manager (to have them imported into a Spatialite DB or a PostGIS one).</p> <p>It would be nice to have the browser support the drop action to it: one pick a SL layer into the DB Manager and drop it as shapefile (maybe it would be nice to allow choosing the format) somewhere in the file system.</p>		

History

#1 - 2012-10-06 02:16 AM - Pirmin Kalberer

- Target version changed from Version 2.0.0 to Future Release - Nice to have

#2 - 2014-06-20 01:36 PM - Giovanni Manghi

- Resolution set to wontfix

- Status changed from Open to Closed

does not make a lot of sense anymore.
