

QGIS Application - Feature request #483

Provide regular expression separators for the delimited text plugin

2006-12-23 12:08 AM - Gavin Macaulay -

Status: Closed	
Priority: Low	
Assignee: Gavin Macaulay -	
Category: C++ Plugins	
Pull Request or Patch supplied:	Resolution: fixed
Easy fix?: No	Copied to github as #: 10542
Description	
<p>In some cases having a regular expression for parsing delimited text files is desirable. For example a file with a variable number of consecutive spaces as the delimiter is no longer loadable (it was when the delimiter was a regexp). I suggest that we provide a user toggle to set how the delimiter text is interpreted.</p>
