Category:	Python plugins	
Pull Request or Patch supplied:		
Easy fix?:	No	
Description		
<p>Here #3423 you can find how to get unique tag columns for tags you are interested.</p> <p>I'd like to get, beside "timestamp" and "user" of the node-tag, in unique columns the remaining node-tags "id", "version", "uid", "changeset", "lat" and "lon" in attribute tab.</p> <p>Is it possible today, already, to edit an "osm*****.py" to get this information in attribute tab?</p>
