With the same plugin, gone down to ~700Ko, upload is OK.				
	When submitting	g a plugin zip file of about 1.5M	o, I get a server error 500.	
Tested with atlas plugin.	With the same pl	lugin, gone down to ~700Ko, ι	oload is OK.	
	Tested with atlas	s plugin.		

History

#1 - 2012-01-25 12:40 AM - Alessandro Pasotti

- Status changed from Open to Resolved

Now you should see an error message instead of a 500 (please test and re-open this ticket if still fails).

The message is from: ValidationError(_("File is too big. Max size is %s Bytes") % PLUGIN_MAX_UPLOAD_SIZE)

PLUGIN_MAX_UPLOAD_SIZE is currently set to 1048576

If you think that this size is too small, please open a thread on the mailing list, this size was not my choice.
