

# QGIS Application - Feature request #4887

## save choice of "Item reference point" for composer items.

2012-01-25 11:02 PM - Alister Hood

<b>Status:</b> Closed	
<b>Priority:</b> Low	
<b>Assignee:</b>	
<b>Category:</b> Map Composer/Printing	
<b>Pull Request or Patch Supplied:</b>	<b>Resolution:</b> fixed/implemented
<b>Easy fix?:</b> No	<b>Copied to github as #:</b> 14706
<b>Description</b>	
It would be good to have what the title says.	
Currently this is what happens:	
<ul style="list-style-type: none"><li>- Create a composer layout and add an item to it</li><li>- Click on the "Item" tab, then "Position and Size"</li><li>- Change the "item reference point" and set the position</li><li>- Click "Close"</li><li>- Click on the "Item" tab, then "Position and Size"</li></ul>	
The "item reference point" will have reverted to default.	

### History

#### #1 - 2012-04-15 10:21 AM - Giovanni Manghi

- Target version set to Version 2.0.0

#### #2 - 2012-10-06 02:24 AM - Pirmin Kalberer

- Target version changed from Version 2.0.0 to Future Release - Nice to have

#### #3 - 2014-04-06 06:03 AM - Jürgen Fischer

- Category changed from 33 to Map Composer/Printing

#### #4 - 2014-05-20 04:02 AM - Nyal Dawson

- Status changed from Open to Feedback

I can't replicate this - can this be closed now?

#### #5 - 2014-05-20 08:12 PM - Alister Hood

- Resolution set to fixed/implemented

- Status changed from Feedback to Closed

Yes, it looks like it can.
