QGIS Application - Feature request #493
spatial bookmarks always active (instead should be active only where created)

Pull Request or Patch supplied:			**Resolution:**	invalid
Easy fix?:	No		**Copied to github as #:**	10552

Description

Using Qgis (0.7.4 as well as .8 pre-releases) in a course, I've noted that all spatial bookmarks are stored in qgis.db (so they are always active).

This is not very usefull, because spatial bookmarks should be active only for the project where they has been created.

What's your comment?

Best!

- Resolution set to invalid

- Status changed from Open to Closed

Spatial bookmarks are intended to be global, not project specific. If you'd like project specific bookmarks, please add an enhancement ticket against the 0.9 release.
