

QGIS Application - Bug report #4940

Create GRASS location takes the extent from the canvas, not reprojecting it

2012-02-03 02:34 AM - Paolo Cavallini

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	GRASS	
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution: fixed/implemented
Crashes QGIS or corrupts data:		Copied to github as #: 14738
Description		
<p>When creating a new GRASS location, it is quite handy to take the extent from the QGIS canvas. However, if the region is created in a different CRS, the extent is not reprojected, thus the creation results in an error.</p> <p>Looks an easy fix (just reproject the canvas Bounding Box before passing it to GRASS).</p>		

History

- #1 - 2012-09-04 12:10 PM - Paolo Cavallini
- Target version set to Version 2.0.0
- #2 - 2014-06-28 07:41 AM - Jürgen Fischer
- Target version changed from Version 2.0.0 to Future Release - Lower Priority
- #3 - 2015-11-13 07:16 AM - Radim Blazek
- Resolution set to fixed/implemented
 - Status changed from Open to Closed

Fixed in commit:04f321647, see also #13784.
