| Description | |
| [[MapServer]] export tool crashes if some layer is set as unique value and attributes in classification field contains non-Latin1 characters. | |
| I've attached affected project file. | |

History

#1 - 2007-02-25 07:25 PM - Tim Sutton

Moved to milestone 0.8.2 since we wont be fixing any further issues before the 0.8.1 release

#2 - 2007-03-09 02:03 PM - Magnus Homann

- Resolution set to fixed

- Status changed from Open to Closed

Fixed in . All values are encoded to utf-8 when being written to map file.

#3 - 2009-08-22 12:52 AM - Anonymous

Milestone Version 0.8.2 deleted
