My projects use multiple geometry columns for each table, and I've noticed the geometry column having different sortings.

So naturally, please update qgis/src/app/qgsdbsourceselect.cpp:

## 558c558

< "order by f\_table\_schema,f\_table\_name";
--> "order by f\_table\_schema,f\_table\_name,f\_geometry\_column";

#### #3 - 2009-04-28 01:05 PM - Paolo Cavallini

Can the patch be applied?
