Pull Request or Patch supplied:	No	**Resolution:**	
Easy fix?:	No	**Copied to github as #:**	15018

Description

I guess a useful enhancement could be the option for the layers in the properties to choose the coordinate of the

geometries or of the raster to be relative to the map.

So the layer will allow to define points, lines or polygons and also texts,

always in a fixed position on the visible map-canvas.
