QGIS Application - Feature request #532
selected features disappear after any change

2007-01-12 07:54 AM - maiellaro-itc-cnr-it -

Status:	Closed		
Priority:	Low

Category:			
Pull Request or Patch supplied:		**Resolution:**	fixed
Easy fix?:	No	**Copied to github as #:**	10591

Description

The features selected in response to any query (open table; search; show only matching) are visualized in yellow.

After any change (pan - zoom, swith on/off layer and so on), the selected features disappear.

It would be better to hold the selection until a voluntary deselection action

A function to clear the selection should be useful.
