Description

Adding their logos,and improving the formatting. Sizes should be scaled down from http://community.qgis.org/en/sponsorship.html

Platinum Sponsors will have their logo placed on rotating banner on front page of qgis.osgeo.org

Gold Sponsors will be listed on the sponsors page with a large logo (60k pixel, e.g. 300x200px)

Silver sponsors will be listed on the sponsors page with a medium size logo (30k pixel, e.g. 200x150px)

Bronze sponsors will be listed on the sponsors page with a small size logo (6k ixel, e.g. 100x60px)

after the expiring of the sponsorship year, logos will be kept until space will allow, reducing their size by a half

- Target version set to Version 2.0.0

#5 - 2012-09-07 11:13 AM - Werner Macho

What about inserting the Sponsors into the About again and just copying the HTML from the Webpage there and Exchange that for every Year?

If we decide to keep it like it is now.. Sponsors on their Webpage and Donors included in the about box this bug can be closed ..

- Subject changed from Please improve the sponsors page to Please improve the sponsors dialog

Paolo, could you specify what exactly is wrong with the current sponsors dialog (except for some missing sponsors)?

Do you mean that the special QGIS medals should be used? Logo size looks fine to me, AAS is as big as the silver sponsors combined.

Hi Anita.
- category (gold, silver, bronze) logo (I have only a circle, no mention of which is gold etc.)
- size of sponsor logo (should be bigger for gold, etc.)
  Keeping them updated is also an issue, better if we do it in an automatic fashion.

The medals look fine here on Win with OSGeo4W (see attachment).

You're right that the gold sponsor logo is too small. While it is 300 px wide, it's not nearly 200 px high and thus too small ...

+1 for some way to sync website sponsor page and sponsor dialog in the application. Maybe a single file on Github that is then pulled by both?

From the screenshot (identical to the dialog in our Deb boxes) I confirm that the medals are not the same as in
http://qgis.org/en/site/about/sponsorship.html (Q with arrow missing).
