QGIS Application - Bug report #5410
Copy constructor of QgsDataSourceURI does not work

2012-04-18 02:18 PM - Tamas Szekeres

Status:	Closed		
Priority:	Severe/Regression		
Assignee:			
Category:			
Affected QGIS version:	master	**Regression?:**	No
Operating System:		**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	fixed
Crashes QGIS or corrupts data:		**Copied to github as #:**	15075

Description

The copy constructor currently copy the mParams attribute, but doesn't copy the attributes initialized by the QString constructor.
For this reason the following code does not work correctly:

QgsDataSourceURI uri = QgsDataSourceURI(srcUriString);

Problem was introduced by commit:d7e8ae18c725d356ecc02f27d5a94ae3d4462537

This problem breaks the MSSQL provider and probably some others as well
