Loading layer when "Project wide default projection will be used" is selected, under QGIS Options - Projection tab, causes QGIS to crash.	

### History

#### #1 - 2007-01-27 11:06 AM - Magnus Homann

I can reproduce this with opening a raster layer and projection 2673.

Works for me in trunk (compiled on win2k).

No possibility to debug 0.8 on win32 for me.
